

MD. MOTASIM BIN KAMAL

AI AUTOMATION ENGINEER | AI AGENT & WORKFLOW DEVELOPER | SQL SERVER DBA

Rajshahi, Bangladesh | +880 1720 610836 (Mobile&WhatsApp) | motasim92@gmail.com

Alternate Email: motasim92@yahoo.com |

PROFESSIONAL SUMMARY

Results-driven AI Automation Engineer transitioning from a 20+ year career in SQL Server Database Administration and a robust background in Engineering into building production-grade AI agents, voice automation systems, and end-to-end workflow pipelines. Hands-on builder of voice agents, n8n & make automation workflows for Real-life problem solving and MCP integrations. Combines deep infrastructure and database engineering discipline with fast-moving AI tools to design automation systems that are not just clever, but reliable, fast paced, secure and production-ready.

AI AUTOMATION & AGENT DEVELOPMENT EXPERTISE

▪ Conversational AI Design (LLM Prompting)	▪ AI Agent Architecture & App Development	▪ n8n, Make Workflow Automation
▪ Building GPT/Gemini Gems	▪ Voice Agent/Retell AI Integration	▪ RAG / Knowledge Base Pipelines
▪ OpenAI API ,Claude Code & AI-Assisted Development	▪ Google AI Studio/Antigravity for SaaS Applications	▪ ElevenLabs ,Vapi and MCP integration
▪ Kling AI / fal.ai Video Generation	▪ Meta Business Suite and Facebook Graph API	▪ Google OAuth & Google Calendar Integrations
▪ Frontend and Backend Web Development	▪ Linkedin Automation	▪ Github/Vercel/Netlify Deployment

Selected AI Automation Projects

- **Social Media Automation:** Developed an AI-powered Agent for social media content creation and automatic posting on Facebook page, Instagram and linkedin accounts as per content calendar.
- **Voice Agent for Appointment booking/ consulting:** Designed a knowledge base and conversational architecture for a stock consulting voice agent built for deployment on Retell AI, orchestrated through n8n for scheduling, CRM logging, and escalation routing.
- **YouTube Shorts Automation Pipeline:** Built a fully automated, form-triggered n8n pipeline integrating OpenAI image generation, Kling AI video generation, ElevenLabs TTS, fal.ai, and Google Drive — turning a single form submission into a finished short video.
- **YouTube Video Summarizer:** Built AI Agent that summaries video from the URL and creates Title, Description and Hashtags.
- **WhatsApp Agent for FAQ and Enrollment:** Answering questions from student WhatsApp number and enrollment with Google sheet Integrations for coaching center or training admissions.
- **Gmail Autoreply agent with Human in the loop:** Generate autoreply to customer based on criteria and take approval if needed.
- **Sales Assistant for online store:** Sales chatbot integrated with web store for helping customers in purchasing different products and offering discounts.
- **Stock Market chart analyzer tool:** Get chart through API integration and analyze the chart for stock market decision making
- **Web/Telegram chatbot with RAG Integrations:** Building RAG with Supabase Vector Store for answering questions through website chatbot, Gmail, WhatsApp and Telegram platforms.

TECHNICAL PROFICIENCIES

AI & Automation Stack: n8n, Make, Supabase RAG/vector pipelines, Apify, Webhooks, REST APIs, Claude Code/Cowork/ Design, OpenAI API, Google Gemini, Retell AI, ElevenLabs, Vapi, HayGen, Openrouter, Hugging Face, Kling AI, fal.ai, Numerous Ai, Supergrow, Phot Ai

Development: Google AI Studio, Antigravity, VS Code, Github, Vercel, Netlify, Lovable, Bolt, Replit, Perplexity, Higgsfield, SQL Server, PostgreSQL, Google OAuth 2.0, Gmail API, Google Calendar API, Genspark, Suno, Notebook LM

Database Platforms: SQL Server (2012-2022), Windows Server 2016-2022, VMware, Azure Cloud, AWS RDS/EC2, PostgreSQL

Database Tools: SSMA, SSIS, SSRS, Power BI, T-SQL, DBCC, Performance Monitor, SQL Profiler, Database Engine Tuning Advisor

CAREER EXPERIENCE

Senior SQL Server Database Administrator — *Help Media Network, Rajshahi, Bangladesh, Dec 2021 – Sep 2025*

- Led high-availability SQL Server clustering and mirroring initiatives across multi-node platforms, achieving 99.9% uptime for critical production instances.
- Mentored a team of 2–3 junior DBAs across SQL Server 2016/2019/2022 on Windows Server, VMware, and Azure environments.
- Implemented advanced security (TDE with SSL), automated index maintenance, and performance tuning that measurably reduced query execution times.
- Managed HA/DR strategy including failover clustering, log shipping, and database mirroring for enterprise disaster recovery readiness.

Senior Manager, Maintenance & Projects — *Square Pharmaceuticals Ltd, Dhaka, Bangladesh, Dec 2015 – Sep 2021*

- Supervised operation and maintenance of critical process and utility equipment across multiple pharmaceutical manufacturing plants.
- Led electro-mechanical project execution, installation, commissioning, and qualification of equipment and facilities.
- Directed validation programs for HVAC, Purified Water, WFI, and Pure Steam systems across solid dose, Pellet, and API plants.

Manager, Maintenance — *Square Pharmaceuticals Ltd, Gazipur, Bangladesh, Feb 2006 – Dec 2015*

- Operated and maintained critical utility systems (HVAC, compressed air, steam, purified water) supporting GMP-compliant manufacturing.
- Implemented SAP ERP (PM, MM, PS modules) and supervised GAMP-5 / CFR21 Part 11 compliant validation documentation.

Lecturer, Mechanical Engineering — *Khulna University of Engineering and Technology, Bangladesh, Nov 2000 – Aug 2002*

- Taught undergraduate mechanical engineering courses and supervised undergraduate thesis projects.

Executive, Engineering — *Square Pharmaceuticals Ltd, Pabna, Bangladesh, Jan 1999 – Nov 2000*

- Maintained and troubleshoot process and utility machinery in compliance with ISO 9001 standards.

EDUCATION & CREDENTIALS

AI Automation Credentials

- **Certification of Completion:** Master AI Automation & Build AI Agents from Ostad, Bangladesh (<https://ostad.app>)

Academic & Technical Credentials

- **Certification of Completion:** Microsoft SQL Server Database Administration from DBTech Training Center, USA, CIP CODE: 11.0802(<https://dbtechcenter.com/>)
- **Master's degree:** Master of Science in Mechanical Engineering (M.Sc.) completed in 2004 from KTH Royal Institute of Technology, Stockholm, Sweden(<https://www.kth.se/>)
- **Bachelor's degree:** Bachelor of Technology (B.Tech) in Mechanical Engineering completed in 1997 from IT-BHU, Varanasi, India(<https://iitbhu.ac.in/>)

ADDITIONAL INFORMATION

- Professional Affiliation: Fellow Member, Institute of Engineers Bangladesh (IEB), Dhaka(<https://www.iebbd.org/>).
- International Business Travel: UK, Sweden, Germany, Finland, Italy, UAE, Saudi Arabia, China, Thailand, India, Nepal, Sri Lanka, Singapore, Malaysia.
